## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4 and 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, there is no clear antecedent basis for the “opening through the seal”.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 18-21 and 26-32 are rejected under 35 U.S.C. 102(e) as being anticipated by Halliday et al. ‘333.

There is disclosed in Halliday a disposable packaging 1 for dispensing a preparation from a pumpable liquid (hot water and beverage mixture) comprising a closed compartment 9 containing the pumpable liquid, means (top surface area of package) for accepting an aspiration and mixing subassembly 15, 16, 17, 18, the mixing subassembly being an equivalent to a venturi type since air from inlets 18 and beverage

from outlet 15 are drawn into a chamber 17 by a restriction 16 for mixing; and a sealing means 3.

***Allowable Subject Matter***

Claims 2, 3, 5-14 and 22-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 4 and 15-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
